# **Peace Incomes** and War Prices

TEN years ago a Canadian clergyman was forced by illness to retire from active work. The largest salary he had received in the forty years of his ministry was \$1000 and a furnished house. The average did not exceed \$300.

On this sum he had maintained and educated his family. He and his wife were given to frequent hospitality. They supported every good cause, and even contributed to the maintenance charges of the Church they served.

A Minister's Budget

By good management and economy they were able to carry an endowment inaurance policy, pay an assessment to their Church Susperannuation Pund, and accumulate some small savings. When that clergyman was superannuated in 1999, he bought a house, His income during the first year of retirement was as follows:—

The retiring allowance from the Church (being \$10 for each year of active work)

Interest from investments

Wedding fees and sundries

Summer supply work

# Four Good Reasons for a National **Forward Movement**

"For God so loved the world, that He gave His only begotten Son, that whosever believed on Him should not perish but have everlasting life."

DESPITE the four years' fury of War, and the year of uncertainty just ended, the people of Canada have prospered. Yet, spiritual glories revealed to us in the great Conflict are being clouded by drifts, of class-hostility, mutual suspicion and cynical materialism.

The world is troubled. Old conceptions are giving place to new. Yet, the Kingdom of God remains, family grounded on the great principle of love. It has the one remedy for a world diseased—"Believe on the Lord Jesus Christ and thou shalt be saved."

Five Christian Communions—Anglican, Baptist, Congregational, Methodist and Presby-terian—call their various constituencies and the whole nation to a livelier and more sacrificial Christianity. They are making a great financial appeal. It is fitting that the public should know the reasons.

The Decline of the Dollar has affected injuriously the position of every man working for a fixed salary. Misevery man working for a fixed salary. Mis-sionaries are in this category. Stipends that were ample in 1900, and nearly ade-quate in 1912, are utterly insufficient in 1920. There has been no general increase in these stipends. There cannot be, until the Canadian people scale-up their giving to balance the decline in purchasing-power of the Canadian dollar.

International exchange has been unstable. Money for export has been subject to heavy discounts. In view also of the increased cost of materials and of, labor, any new building programme abroad has been out of the question. But the need for new buildings is imperative. Some missionaries are living in clay-floored huts.

New Standards Synods, the Baptare Necessary the Conventions, and the Presbyterian General Assembly, have set new standards for the salaries of Clergymen actively engaged in Canada. Ceregymen actively engaged in Canada perannusted Ministers, no increases have been possible.

One of the aims of the Forward Movement is to show the fine-spirited, generous, Christian people of Canada that the old standards of giving for Missions must be revised. It is impossible to maintaint aristing sations, even on a pre-War basis, without more meen, and much more revenue.

Coincident with The Call this financial difficulty, new and glorious operated. In India, Interally millions of peared. In India, Interally millions of peared. In India, Interally millions of peaceter and peading for Missionary management of the peaceter of the peading for Missionary teachers are urgently required to help formulate the National system of education. The Call ulate the National system of education. Hospitals, Missionary nurses, doctors and dentists, are heartily welcomed by the people. From Japan, Africa and the Islands of the Sea, comes the same story.

3 The Home The Home Here in Canada, two work of evan-Responsibility gelizing Indians and Estimon must now be undertaken wholly by the Canadian Church. The rapid growth of our cities, the expansion of the West, the great immigration of the last twenty years, and the depositiation of rural areas, make a four-fold problem which can be tolved only by increased resources of men and money.

No excuse will be accepted for un-significant as there has been abundant warning for weeks of the pos-tity of a return of the "fid" to Belleville, which can hardly hope to ps when other places in every direction are so hard hit.

THE POLITICAL SHIMMY:

The political pot at Ottawn is not boiling; rather is it similaring in isobblul kind of a way suggesting a political shimmy dance. The fat would like to take advantage of Sir Robert Borden's absence and sign to be relieved of office, and try to shake down the bouse of Union-ing to be relieved of office, and try to shake down the bouse of Union-tical and the state of the state o and a woosen durfare-box states for up is soon queece aim ansaere agil the array of disgramthed ones from alice entering to disappointed for and contract seekers. However, the cloud no larger than a man's and which rose on the political horizon after the war and gave so fast as Haarst, et al, were swept away in the resultant delays, also men-sers Ottaws, and the Orits are fearful to more lest a worse thing heful her than Union Government.

The Conservatives are getting bury in a negative kind of a way, paring for an opening as it were. How. Arthur Meighen is trying out tiles of patter about continuing Union Government backed by a great all grand new Union party. Of course the idea is fo give Rowell, et al., stretched Liberal, a chance to line up with the Tories under the bander stretched Liberal.

of Unicoisies.

Hoo. Howard Formson is sounding the reain concessions and side Rose with a cell of back to party lines, the National Policy and the conservation of Er. John A. Macdonald, and let the Union Libe actach on or fail by the wayside. Howard is listening for the response—which so far is Ashabi but Exercible.

The normappear devote a good dead of space to the speeches recently skillward by Hon. Arthur Mighen at Kingston and Montreal, and able to the speech dairwed by Hon. The Ottaws Citizen views the Meighten speech from a far different angle. The moderate men, it fears, are the more who want a teriff as high as Haman's gallows, although-sputie willing to call it moderate. It implies that the United States of the Control of the Co

On the other hand, Howard Freymon seas to reason sky the old Conservative party should not be the defender of the old Conservative policy protection. Neverthelase, Air. Ferguson's outburnt gives some unessiness to press supporters of the Government. The Oliza's Journal deplores the stack, and can see no purpose in it, complete projection as election which could not possibly be carried by the Conservative party. The breaken of the Unionity sarty, it say, would turn the government of the country over to nobody home what, and nose on to say: "Any wakening of this party, whether by departure of the Libertals or by dissensions smoog Conservatives must mean some other sort of government in Canada, saw who this if it could be a stright Conservative con. The Montreal Gazette, while not endowing the Ferguson attack, that, after all the Conservatives will have to be the main reliance says thist, after all , the Conservatives will have to be the mean retission of the Government should it go to the country, and this is probably true, the properties of the Government should it go to the country, and this is probably true, the properties of the country of the

MF the Ford Motor Company of Canada, Limited, is able to build up to the limit of its capacity, only 27,350 Ford Cars will be built for use in Canada between January the first and July the-thirty-first of this year. Divided among the total population of Canada this means one car to every three hundred and ten people.

It is easy to see that many people will be unable to get their Ford Cars at all, and many will have to wait for summer or fall delivery.

As Ford Dealers in this territory, we desire to deliver a car to every person in this district who wants one, but we cannot get the cars unless we send in the orders now.

If you will need a car later on, don't wait till spring before ordering. Put yourself at the top of the delivery list by signing an order today.

Not one of them possessed any training or experience in the in-tricacies of life insurance.

The number of cars we can get dépends upon the number of orders we send in and the early date at which we send them in, as the Ford Shipping Department follows the principle, "First Come, First Served."

Cars ordered now will not be delivered until March, and deliveries will be uncertain throughout the year. If you do not want to wait for summer or autumn delivery, come in and reserve your car by signing an order today.
